Notice to Customers regarding the EU Timber Regulation

The European Parliament's regulation (EU) no. 995/2010 to address the problem of illegal logging and prohibit the sale of illegally sourced timber within the EU, lays down the obligations of operators who place timber and timber products on the market.

To support our customers meet the requirements, Alpi SpA, together with its subsidiaries, are able to provide all information required of the EU Timber Regulation so that obligations regarding risk assessment and risk mitigation can be undertaken.

Information that can be supplied includes:

- Scientific name of the timber species;
- Country of harvest and/or production area;
- Name and address of the supplier;
- Documents stating the legal right of concession and harvest;
- Documents indicating compliance with the tax, social security and environmental legislation of the country of harvest;
- Risk assessment procedures applied in the purchase of raw material from third parties.

Additionally, and as further evidence of the existence of established procedures aimed at demonstrating legality and sustainability of its products, Alpi SpA is able to provide certification against the following standards:

- Certificates FSC® SGSCH-COC-004194 and BV-COC-003195;
- OLB ("Origine et Légalité des Bois") Certification no. 090501 and no. 60441064 issued by Bureau Veritas; and,
- Certification N° IT16/0631 of Italian Poplar plantations issued by SGS.

To retain and confirm the above-listed certifications, Alpi SpA undergoes yearly surveillance audits.

In witness whereof,

Vittorio Alpi - CEO
Alpi S.p.A
